

**Centre for Learning and Teaching
Staff Development Session 2019-20**

Facilitator: Dr Chris Lawton

Title: Outcomes-Based Curriculum Design for Success (Outcomes-based Design)

Time: 12.00 – 13.30

Objectives:

By the end of the session, delegates will be able to:

- 1) Use QAA Benchmarks & other subject/sector reference points in designing curriculum.
- 2) Use constructive alignment & universal design to make your life easier and support student success.
- 3) Design a varied programme level assessment strategy which supports students' development of assessment literacy throughout the curriculum.

Prerequisites: This session is open to all staff.

Programme:

This session will consider an efficient approach to designing curriculum that draws on established pedagogic research and national reference points to support staff and promote student success.

Rationale:

This session will consider an efficient approach to designing curriculum that draws on established pedagogic research and national reference points to support staff and promote student success.

The proposed session will be associated with dimensions of practice A1, K2, K6, V3 and V4 of the UKPSF and the Learning, Teaching & Assessment lens of the Taught Degrees Framework.
