

**Centre for Learning and Teaching  
Staff Development Session 2019-20**

**Facilitator:** David Lawson

**Title:** Supporting students' development

**Objectives:**

Considerable amounts of research indicate the importance of self-regulated learning to support students at University. Since the introduction of 'widening participation' by previous governments, whilst at University some students are the first in their family and some are not prepared. Consequently, strategies to develop students self-regulated learning by means of a online questionnaire signposting them to support within the University.

**Prerequisites:**

This session is open to all staff.

**Programme:**

The session will explore what ways and means have been used and the go further to explore a Motivational Questionnaire as a Learning tool and its degree of success around the world.

**Rationale:**

The aim of this session is to offer free online applications that students can use to highlight their strengths and weaknesses. This app was desgined by the author and applied to both the Manchester and Ormskirk ODP teams.
