

# Risk Assessment Template

Task To Be Assessed:	Campus Sport Activities
Assessor Name:	Gareth Lougher
Reference Number:	EHS/SD/CSA3.0
Number Of People Exposed:	1500
Assessment Date:	August 2023
People Exposed (Staff / Student /	Staff / Student / Community
Visitor):	
Department:	Edge Hill Sport
Location Of Activity:	Sports Facilities
Activity Description: (Please give a description of the activity you are risk-assessing, including times, number of people, and current controls where applicable)	

Hazard Checklist – use this to identify the hazards to be considered:

Situational	Tick	Physical / Chemical	Tick	Environmental	Tick
Slip, trip, fall	✓	Harmful substances		Temperature	✓
Fall from height		Electrical (shock, burns, fire, arcing, explosion etc)		Weather	<b>✓</b>
Lone Working		Biological agents		Extreme locations (mountains, mud flats etc)	
Manual Handling		Fire			
		Machinery (entanglement, incorrect setup etc)			
		Use of sharps			
		Vehicle movements			

HAZARD	PERSONS AT RISK	HOW IS PERSON AT RISK	CONTROL MEASURES	F	RISK ACTO		Action / by whom?	Action / by when
				L	С	R		
Player Issues	Participants	Collisions	Manage safe number of students per session in the facilities provided.	2	2	4		
Control / discipline / behaviour	Participants		All NGB / BUCS guidelines to be followed during all sessions  Ensure there is a designated lead for each session and that they have controlled during sessions and challenge any unacceptable conduct.  Players should follow the rules of the game and play 'in the spirit of the game'. Designated lead should be responsible for the actions of the players.  Consistent failure to do so or dangerous play should result in player(s) being asked to leave the session.  Participants should not use equipment unless under the supervision and instruction of a qualified person / coach.  Ensure goalkeepers defend their goal against one ball at a time only during skills practice/warm-up  For activities not within the Sports Centre an additional method for communication must be available to be used (e.g. radio (if available) or mobile phone)	2	2	4		
Personal effects around the side of playing and training facilities	Participants	Obstruction, Slip, Trip	All personal belongings to be keep away from the area for play.	1	2	2		

			Where possible belonging to be left in lockers, changing areas or in designated areas (such as dugouts or spectator area)				
Building Faults	Participants	Slip, trip, collision	If anyone within the session raises any concerns or faults regards the building or facilities these should be reported to an Edge Hill Sport Member of staff (issues with lighting, floor surface, faulty equipment etc)	1	4	4	
Safety of equipment	Participants	Impact, crush / collision	EHS to inspect equipment regularly and where possible prior to use and report immediately any concerns they have to an Edge Hill Member of staff (goals, posts, nets etc).  Session to be provided with NGB approved equipment (e.g. size of balls) and other recommendations (e.g. pressure).  Any damage occurred during use must be reported immediately to an Edge Hill Sport member of staff. Participants to ensure they do not use any equipment which is damaged or fault which could result in injury or harm.	2	2	4	
Footwear	Participants		The correct footwear should be worn for reach facility;  Sports Halls – non-marking footwear  Hockey Pitch – Moulded / pimpled footwear  3G pitch – Studded / moulded footwear (No trainers / blades)  Grass Pitches – studded / moulded footwear including blades if NGB's guidelines allow (No trainers)  Swimming pool – no outdoor footwear	2	2	4	
Not warming up injuries	Participants	Injury	Ensure all customers participating in an activity have completed an appropriate warm up prior to participating in the session.	1	2	2	

Foreign Objects	Participants	Slip / Trip /	EHS / volunteers to check play and training area for	1	2	2	
on		Collision	any foreign objects remove prior to use and during all				
playing/training			sessions.				
area			Participants to report any concerns regards items				
			found.				
Persons general	Participants	Injury	Participants to self-assess own fitness capability to	3	2	6	
physical condition			undertake physical activity.				
or lack of			Ensure all players are aware of rules and enforce rules				
experience			of the game and centre.				
leading to injury			Aim to match size/weight of participants paired				
			together. Also take into consideration differing				
			technical ability of students.				
Lacerations from	Participants		Advise participants to keep fingernails and toenails cut	1	2	2	
uncut fingernails,			short.				
toenails or			Where possible all jewellery should be removed				
jewellery caught			before activity. If jewellery cannot be removed it				
			should be taped up.				
Clothing caught	Participants		Participants to wear appropriate clothing	1	2	2	
			Advise against wearing clothing with toggles / zips				
			that can get caught or injure other participants.				
Loose hair	Participants		Hair to be tied back properly out of the way when	1	1	1	
trapped in			participating in any sporting activity.				
apparatus and							
effecting vision							
Dehydration	Participants		Encourage participants to drink plenty of water before	2	2	4	
			and after activity and at regular intervals if required.				
Injuries	Participants		All injuries occurring on EHU campus must be	2	2	4	
			reported using the EHU Accident reporting				
			mechanism				
			(https://www.edgehill.ac.uk/services/accident-				
			reporting/)				
			All accidents must be reported to the Duty Manager				
			on the day of the accident.				

Injury reculting	Darticipanta	Collision	Whose safety / protective equipment is required by	2	2	6	
Injury resulting	Participants	Collision,	Where safety / protective equipment is required by	3	2	6	
from collision		Impact	the NGB, no player should be allowed to enter the				
with another			playing area with intent to play without the required				
player or playing			protective equipment in place.				
equipment (ball			Participants need to ensure that they communicate to				
etc)			each other to minimise any collisions / confusion and				
			make sure that other players are out of their way				
			Designated Session Leads to keep an eye on safe				
			practice and stop any teams/athlete/spectators				
			participating in an unsafe manner (e.g. kicking a ball				
			towards a group of people, spectators encroaching				
			towards the field of play).				
Encroachment	Participants /		People encroaching onto the facility whilst sessions				
onto playing area	Spectators /		taking place, spectators to be asked to leave whilst				
	other users		session continues, if persistent issue contact EHS for				
	(next sessions)		support				
Sunburn	Participants		Apply sun cream regularly.	3	1	3	
	·		Wear a hat, where appropriate. Seek medical				
			attention if required.				
Intoxication	Participants		No participant will be allowed to play if they are	2	3	6	
	,		intoxicated.				
			There is an alcohol exclusion zone around the sports				
			facilities.				
Coaches	Participants		Where NGB / BUCS guidelines require a qualified	2	2	4	
			coach, they must be present at all sessions.				
			EHS SDO to ensure coaches are qualified and are				
			teaching the correct technique following NGB				
			guidelines and to the level of qualification.				
			Ensure that the coaches are aware of limits of				
			role/responsibilities.				
			Coaches to ensures all safety precautions are in place				
			(e.g. matting, spotters)				

		i	Coaches should ensure that all players are fit and capable of playing the sport. The coach should first instructed participants in the proper technique and ensured that the instructions have been understood full before undertaking skills.				
First Aid Provision	Participants		Edge Hill Sport will provide first aid cover for all Campus Sport sessions and undertaking the appropriate skills.	2	2	4	
Officials	Participants		Lack of Qualified Referee BUCS / NGB guidelines are to be followed	1	3	3	
Lack of Medical Conditions	Participants		Session leads are to provide the opportunity and actively encourage participants to disclose any relevant medical conditions including any supportive requirements and action in case of an emergency	2	2	4	
Participating in activities which require high skill or experience. (trampolining, cheerleading etc)	Participants		Ensure students are trained appropriately by a qualified and experienced person and that the students has been assessed and deemed competent to participating in a particular activity prior to match/competition.  Ensure that when a person has previously been injured in a high skilled activity, they are reassessed in their competence to participate in an activity prior to the next competition.  Where a student is injured in a training session / match on more than one occasions or where regular injuries occur resulting from similar practices (e.g. scrums) these should be investigated, and additional safety measures should be considered (e.g. NGB guidelines / additional training).	2	2	4	

\*Risk Factor / Residual Risk Factor (R) = Likelihood (L) x Consequence (C). Refer to Risk Matrix on final page.

The following activities have additional considerations within Risk Assessments (please click below for specific risk assessments)

- Baseball & Rounders
- Roller Skating
- TrampolineWater Polo

Baseball & F	aseball & Rounders																													
HAZARD	PERSONS AT RISK	HOW IS PERSON AT RISK	CONTROL MEASURES		RISK FACTOR*																				ADDITIONAL CONTROL MEASURES	RESIDUAL RISK FACTOR*			Action / by whom?	Action / by when
				L		R		L	С	R																				
Hit by bat or ball and collision with a post	Participants	Collision / impact	Carry the bat around after batting Pitcher to check with batter that they are ready before every bowl Allocated areas for batters/fielders Catchers are required to wear a mask (and encouraged to wear a dangling throat protector), chest protector, a	2	2	4																								

Roller Skatin			box/cup, leg guards and a catcher's helmet. The batter, players in the on-deck circle, base runners and players coaching in the coaching box must wear double ear batting helmets. Catching practice / exercises, inform spectators to be aware and batting practice hits away from catchers							
HAZARD	PERSONS AT RISK	HOW IS PERSON AT RISK	CONTROL MEASURES	RISK FACTOR* L C R		ADDITIONAL CONTROL MEASURES	RIS	CTOR	Action / by whom?	Action / by when
Skate Equipment			All skaters to skate in the same direction							

All In-Line and
Quad Skates
must be clean
and in good
repair. NO
MISSING
WHEELS OR
SHARP
EDGES.
Participants to
wear
appropriate
clothing to
cover full body
(covering
arms/legs).
It will be highly
recommended
for skaters to
wear
appropriate
Head, Knee,
Elbow and
Wrist
protection and
gloves.
The wearing of
skates will be
not be
permitted
outside of the
skating and
changing
areas.
141040.

			The lead will enforce the general direction of skating, assist fallen skaters if required, provide skating instruction (if qualified), assist with any equipment issues, and ensure the general safety of all skaters as far as is possible.

				L	С	R		L	С	R		
Accidents on trampoline • Injuries back/ne ck • Broken / fracture d bones • Trapped toes Abrasions / grazes	Participants		Suitable, qualified staff for the skills being taught to ensure that everyone is able to control their bouncing Performers understand their own limits and do not misbehave Instruct users not to bounce onto neck or head Coach to ensure performer is suitably conditioned (both mentally and physically) The use of safety aids	1	3	3						

			where appropriate. Follow correct emergency procedures trampoline evacuation.						
Other accidents  • Landing on the floor  • Landing on edge of trampoli ne Hitting wall / overhead protrusions	Participants	Impact, crush / collision	Coach to ensure that everyone can control their bouncing Spotters (at least 2 per trampoline) Placement of trampoline in suitable position Vertical space of at least 5m Ensure there are always crash mats at the ends of the trampoline are properly supported Ensure all surrounding floor area of 1.5m is correctly matted.	2	2	4			

			2m object exclusion zone around trampoline						
Position of Trampolines	Participants	Impact, Entrapment, crush / collision	Positioned away from fire exits and walls overhead or protruding structures glare and dazzle from sunlight No one is to go underneath the trampoline When using more than one trampoline, coaches should carefully assess the following: The age, experience, varying abilities, number and discipline of	1	2	2			

			the participants Their ability to observe, advise, support and respond to the difficulties of anyone in the trampolining area						
Twisted ankles / knees	Participants	Strain / Sprain	Correct footwear must be worn; socks or gym shoes.	1	2	2			
Carpet burns from the mats	Participants	Injury	Coach to instruct use of socks for skills with increased risk of carpet burn, provided this does not cause risk of slipping.	1	2	2			
Persons general physical condition or lack of experience	Participants	Cuts, Bruises,	Maximum of 1½ minutes, 4 or 5 attempts at a skill or 2 routines without suitable rest	1	1	1			

leading to injury			Trained and experienced member of staff or spotter supervises the push in mat						
Learning new skills	Participants	First aid incident	New skills are taught only by a qualified coach using appropriate skill progressions Spotters to assist and directed by coach when necessary Recommende d progressive practices are used, including manual or rig support and push in mats, where appropriate	1	3	3			
Spotting a gymnast	Participants	Crush. Fall, Impact	Spotter must be a qualified coach or member acting under coach supervision. Spotter to ensure	2	2	4			

Accidents caused by slipping mats	Participants	First aid incident	gymnast fully understands the movement and appropriate progressions have been completed as supervised by a coach Coach must ensure that all spotters are not in danger of injury from supporting gymnasts  All gymnasts to lower themselves from trampoline side when	1	2	2			
			exiting the trampoline						
Accidents involving the moving / assembling / dismantling of trampoline	Participants	Entrapment	Ensure that only those competent are involved in moving the trampoline All people must wear trainers	2	3	6			

Injury caused by too many people on trampoline  Injury due to inadequate supervision / lack of qualified staff  Participants  Injury due to inadequate supervision / lack of qualified staff  Water Polo  Participants  Slip, Coach to ensure strict ratio of number of participants on trampoline  Trampoline  1 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3				Manual handling guidelines should be followed at all times.						
inadequate supervision / lack of qualified staff  session are always supervised by a qualified British Gymnastics coach British Gymnastics Guidelines suggest a ration of no more than 8 students to 1 trampoline, and no more than 16 students to 1 coach	caused by too many people on trampoline		Collision,	ensure strict ratio of number of participants on	1	2				
I Malau Dala	inadequate supervision / lack of qualified staff	Participants		Trampoline session are always supervised by a qualified British Gymnastics coach British Gymnastics Guidelines suggest a ration of no more than 8 students to 1 trampoline, and no more than 16 students to 1	1	3	3

## Risk Matrix

				CONSEQUENC	Œ	
		1 Insignificant	2 Minor	3 Moderate	4 Major	5 Critical
		1 NO ACTION	2 NO ACTION	3 MONITOR	4 MONITOR	5 MONITOR
	1 Rare					
٥	2 Unlikely	2 NO ACTION	4 MONITOR	6 MONITOR	8 ACTION	10 ACTION
LIKELIHOOD	3 Possible	3 MONITOR	6 MONITOR	9 ACTION	12 ACTION	15 URGENT ACTION
7	4 Likely	4 MONITOR	8 ACTION	12 ACTION	16 URGENT ACTION	20 STOP
	5 Almost Certain	5 MONITOR	10 ACTION	15 URGENT ACTION	20 STOP	25 STOP

### Risk = Likelihood x Consequence

#### Likelihood:

- 1 Rare this will probably never happen
- 2 Unlikely do not expect it to happen / recur but it is possible it may do so
- 3 Possible might happen or recur occasionally
- 4 Likely will probably happen / recur but it is not a persistent issue
- 5 Almost Certain will undoubtedly happen / recur, possibly frequently

#### Consequence:

- 1 Insignificant no or minimal injury / insignificant damage to equipment or property
- 2 Minor minor damage to property, or minor injury or illness requiring minimal medical intervention
- 3 Moderate injury requiring medical assistance and could result in time off work, damage to property requiring repair
- 4 Major major injury or damage to property, leading to prolonged time off work, increased time in hospital, and likely prosecution
- 5 Critical incident leading to multiple permanent injuries, irreversible health effects, or death. Permanent loss of facility, or persecution

#### Risk Factor / Residual Risk Factor:

NO ACTION (1-2): No further action, but ensure controls are maintained and reviewed

MONITOR (3-6): Look to improve at next review or if there is a significant change

ACTION (8-12): Improve within a specified timescale

URGENT ACTION (15-16): Take immediate action and stop activity if necessary; maintain existing controls rigorously

STOP (20-25): Stop activity immediately
