

## Edge Hill University Quarantine Support Package – International Students

We have put in place a COVID support package for international students intending to study with us in Autumn 2021.

The UK government has implemented a ['traffic light' system](#) whereby countries fall into red, amber and green categories. These categories determine whether or not you have to quarantine (as well as the length of time needed in quarantine) and when you will need to provide a Covid-19 test.

**Green list** – No quarantine period required upon entry to the UK.

**Amber List** – Upon arrival in the UK, a quarantine period of 10 days is required within a private residence.

**Red List** – Upon arrival the UK, a mandatory quarantine period of 10 days is required at a Government approved [managed hotel](#).

[Check if your Country is on the Coronavirus \(COVID-19\) red, amber or green list and and the rules you must follow to enter England.](#)

Details of the support package that we have put in place:-

### **Students Arriving from Amber List Countries**

Students from Amber countries will be allowed to quarantine at Edge Hill University's campus accommodation free of charge. Students will be provided with student wellbeing services and food packages.

### **Students Arriving from Red List Countries**

The University will provide financial support to students who are required to enter [Government quarantine](#). We will pay 50% of the quarantine fee which will be offered as a reduction in your tuition fees.

**Coronavirus is a rapidly changing situation. Information is frequently changing so please regularly check the [Gov.uk/coronavirus](#) website for the latest information and guidelines.**

Best wishes,  
International Office
