

GUIDANCE FOR CAR-SHARERS – COVID-19

You should try not to share a vehicle with those outside your household or support bubble. If you need to do this, try to:

- Share the transport with the same people each time;
- Keep to small groups of people at any one time;
- Maintain good ventilation by keeping car windows open if possible;
- Travel side by side or behind other people, rather than facing them, where seating arrangements allow;
- Face away from each other;
- Consider seating arrangements to maximise distance between people in the vehicle;
- You should wear a [face covering](#) where social distancing isn't possible and where you will come into contact with people outside your household or support bubble;
- Clean the car before use, paying particular attention to touchpoints;
- When driving, you should anticipate more pedestrians and cyclists than usual, especially at peak times of day. You should allow other road users to maintain physical distancing by, for example, giving cyclists room at traffic lights.
