## Summary

This appendix lists all of the named awards that are currently validated by Edge Hill University. It should be noted that although the list is definitive at the time of compilation, it is subject to continuous update throughout the year. The definitive list is compiled by the Academic Quality & Development Unit (AQDU) and is published annually. Responsibility for in-year maintenance of the list resides with the AQDU, informed by reports from Faculties via the Programme Validations and Modifications Group.

## Glossary of Terms

<b>Term</b>	<b>Meaning</b>
Target Award	As described in section B.5 of the Academic Regulations a target award is the designation within an award type for which students register at the commencement of their studies (eg. BA, BSc, MA, MSc). Transfer to a new target award is subject to standard admission requirements.
Alternative Awards	As described in section B.6.2 of the Academic Regulations, within a registration, students may be transferred to an alternative award where they are no longer eligible to complete their target award but are qualified for an alternative validated award route within the programme.
Exit Awards	As described in section B.6.3 of the Academic Regulations, exit awards may be offered to students who are not eligible for their target award at the point they terminate their studies where such awards have been validated within the programme as coherent awards in their own right.

## Purpose

This appendix provides a definitive list (at the time of compilation) of all named awards that are currently validated by Edge Hill University as a source of reference for academic and support staff.
